

DIAMOND TOOLS

MCD Single Crystal Diamond Tools

MCD single crystal diamond tools for ultra-precision machining and mirror-finish applications where edge quality is critical.

Typical Applications

Ultra-precision machining

Mirror finishing

Optical components

Non-ferrous precision parts

Send drawings, current tool model, workpiece material and quantity for quotation review.

Product reference

Advantages

- Excellent edge sharpness
- High surface finish
- Precision geometry support
- Suitable for high-value machining

Specifications

- MCD turning tools
- MCD boring tools
- Special diamond tools
- Drawing-based geometry

FOR QUOTATION

Please provide

- Tool drawing
- Nose radius and angle
- Surface finish requirement
- Quantity

Sourcing support

Requirement review, product matching, trial order support, quality inspection and export communication for industrial buyers.
